

Kevin Li

Computer Science Student

Allen, Texas | 917-982-3294 | kli2024@tamu.edu

PROFILE

Computer Science student at Texas A&M University with experience in software development, front-end technologies, debugging, and collaborative project work. Experienced building modern web applications with React, Next.js, TypeScript, and Socket.IO. Interested in applying programming, problem-solving, and teamwork skills across software, technology, data, and other technical roles.

PROJECTS

HiddenParty.IO | Personal Project *May 2026 - Present*

- Developing a browser-based multiplayer party game using Next.js, React, TypeScript, Tailwind CSS, and Socket.IO.
- Designed real-time lobby management and player communication using WebSockets.
- Applied debugging, testing, and software engineering principles throughout development.

High School Scheduling System | Team Project

- Contributed to the front-end development of a scheduling application serving approximately 7,000 students.
- Developed responsive UI components and collaborated with teammates to integrate front-end features.

EDUCATION

Texas A&M University

Bachelor of Science in Computer Science | Expected Graduation: May 2028

Relevant Coursework: Data Structures and Algorithms, Discrete Structures for Computing, Programming Languages, Program Design and Concepts, Computer Organization, Calculus, Linear Algebra

TECHNICAL SKILLS

Programming: Python, C++, JavaScript, TypeScript

Frameworks: React, Next.js, Tailwind CSS, Socket.IO

Tools: Git, GitHub

Skills: Front-End Development, Software Development, Debugging, Problem Solving, Team Collaboration

Languages: English, Mandarin Chinese
